

Every day it seems that the county I defended as a Marine keeps trying to take things away from myself and other Americans. Now you want to take away my right to listen to the radio programming of my choice. As an over the road truck driver I need the benifets of XM Radio to get me through some of the major cities in this county. Not mention the other programming that Im able to access. You don't know what it's like to go from city to city and loose a signal from a local am or fm station, with Xm I can get all the info I need. With Xm I can pick my channel and leave it there and not take my eyes off the road. This makes it safer for me to move Americas freight from point a to point b. Loosing a radio signal and then trying to find a new signal puts myself and others in an unsafe situation. Now you think about that for a moment, safe or unsafe streets and roads. I choose safe your families are on these roads also, think about that for a moment. THEN make your decision! .

THank you Greg S. Sanderson
